Bangalore | gowthamselvaraj.info@gmail.com | +91-7418612973

Mobile Lead Developer | iOS (Swift) & Flutter | Scalable App Design | AI-Integrated Solutions

## SUMMARY

Mobile Lead developer with **8+ years** experience designing scalable iOS and cross-platform solutions for applications serving **150K+ daily active users**. Expert in **Swift, Flutter**, Clean Architecture, and system design. Proven track record leading **8+ developers** across multiple teams. Established enterprise-wide architectural standards, CI/CD pipelines, and reusable SDK frameworks achieving **25% faster delivery cycles**. Specialized in performance optimization, secure mobile systems (**AES/GCM, OAuth**), and cross-functional technical leadership.

## SKILLS

|                                 |                                                                              |
|---------------------------------|------------------------------------------------------------------------------|
| Languages / Frameworks          | : Swift, UIKit, SwiftUI, Dart, Flutter, Kotlin, Python                       |
| IDEs / AI Agents                | : Xcode, Android Studio, VS Code, Copilot Agent(AI Pair programming), Gemini |
| Architecture & State Management | : MVVM, MVC, Viper, Clean Architecture, Riverpod, GetX, Provider, SOLID      |
| DevOps                          | : CI/CD (Fastlane), Crashlytics, Unit/UI Testing, XCTest, Maven, Instruments |
| Library / Tools                 | : Firebase, Push, CoreData, REST APIs, JSON, async/await, UI/UX, Figma, SPM  |
| Leadership and Other Skills     | : Code review, Mentoring, Git, Prompt Engineering, Agile, Postman, SDKs      |

## WORK EXPERIENCE

|                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |                                             |                     |
